2025-08-24	40	Finalize $PAGE Issuance on Osmosis As a result of the December 1, 2024 multisig actions which eliminated the centralization of the $PAGE issuance, this proposal sets forth the following: Goal: Finalize $PAGE Token Issuance on Osmosis under PageDAO Governance Allocate 50M to Long Term Vesting Contract (annual issuance of 10M on 1/1/26, 27, 28, 29, 30). Immediately & Automatically - happens in code when the proposal passes. DAO does need to go in an CLAIM and SEND to the Staking Rewards Contract - on an annual basis, if still needed. Allocate 7.5M to Short Term Vesting Contract (90-day interval issuance of 2.5M per quarter) Immediately & Automatically - happens in code when the proposal passes, but each proposal needs to be set on the following timeline: Done 30 Days Prior to... In the present situation with PageDAO, a sum of roughly 2M $PAGE are unissued and have no immediate plan for issuance. If this proposal is to pass, these tokens will be issued to the ELM DAO Treasury to be managed intelligently so that $PAGE can grow at the speed the market needs it to. ## Problem Statement $PAGE liquidity needs a great deal of planning and management. 2025-08-24	38	Recognize PageVerse as a SubDAO PageVerse subDAO is a creator-focused center of excellence for blockchain-powered support services. Within the PageDAO ecosystem, the PageVerse will promote equitable, transparent, standardized, and permissionless solutions for creators, collaborators, publishing partners, and marketplaces being currently underserved by heritage publishing platforms. Foreseeable areas of service include, but are not limited to: * Intellectual Property Protection and Management; * Attestation, Attribution, and Metadata; * Monetization and Rewards; * Collaboration and Governance; and * Transmedia Ecosystems. Mission The mission of the PageVerse SubDAO is to foster a collaborative, secure, and protective environment that promotes creativity, innovation, and fair compens... 2025-08-24	42	Fund LP Mining Incentives The time has come to extend $PAGE issuance to LP Mining to ensure the liquidity of the Page Token into the future indefinitely. PageDAO must act to incentivize liquidity as soon as possible. A "Yes" vote on this proposal will: 1. Send 50,000 $PAGE directly to the rewards contract of the Pool 1344 LP DAO to incentivize liquidity locking there from execution through the end of 20242. 2. Direct Core Team to publicize the availability of these rewards & this independent new source of governance power 3. Send 2,000,000 $PAGE tokens to the Page Token Source 1 SubDAO to be staked for governance power & rewards without compromising the independence of the Pool 1344 LP DAO 4. 2025-08-24	3	Core Team Compensation 2024 is here and the final four months of 2023 saw a 160,000 $PAGE backpay debt as the multisig did not automatically distribute 10,000 $PAGE to each team member. This proposal will, if passed, distribute these tokens to the DAO Core Team Members. Each month throughout the year of 2024, we will pass a similar proposal to distribute 10,000 $PAGE to each core team member each month. DragoNate joined the Core Team in December, and will be receiving $PAGE in January and forward as a Core Team Member.
